Amendment to Planning Board Package**

January 27, 2023

Dear Ms. Mitchell:

On November 8, 2022, an application for the subject property was submitted to the Planning Board under a cover letter from Bruce E. Whitaker, Esq. of McDonnell & Whitaker, LLC. Mott MacDonald would like to amend the package as follows:

- The previously submitted Site Plan (Drawing C102) has been updated to indicate the location of the proposed diesel generator and transformer on site, and the zoning table has been updated to reflect a change to the height of the new building.
- The previously submitted Architectural Rendering (Drawing AR001) has been revised to reflect a new design aesthetic for the facility.
- New elevation drawings (Drawings AR002 and AR003) have been added to the drawing set.

(15) copies of the drawings listed above, signed and sealed, are submitted herein, and we request that they be included in the current application package. Should you have any questions or require additional information, please do not hesitate to contact me.

Very truly yours,

Scott Pendergrass, PE
Project Manager
