Notice of Filing and Notice of Public Hearings

Docket No. GR23060331

**PLEASE TAKE NOTICE** that, on June 1, 2023, Public Service Electric and Gas Company ("Public Service", or "Company") filed a petition and supporting testimony ("Petition") with the New Jersey Board of Public Utilities ("Board" or "BPU") requesting that the Board permit Public Service to decrease its Basic Gas Supply Service ("BGSS-RSG") Commodity Charge applicable to its Residential Service ("RSG") customers and to decrease its Balancing Charge, which is based on winter gas usage, to customers receiving service under RSG, General Service ("GSG"), Large Volume Service ("LVG") and Contract Service ("CSG") where applicable effective October 1, 2023, or earlier should the Board deem it appropriate ("Petition"). Approval of the Company's request would result in a decrease in annual BGSS-RSG revenues of approximately \$101 million (excluding losses and New Jersey Sales and Use Tax or "SUT"). The requested decrease in the BGSS-RSG Commodity Charge is from \$0.471718 per therm (including losses and SUT) to \$0.397497 per therm (including losses and SUT), and the requested decrease in the Balancing Charge is from \$0.100691 per balancing use therm (including losses and SUT) to \$0.097914 per balancing use therm (including losses and SUT).

Based upon rates effective June 1, 2023, the combined effects of the requested decrease in the BGSS-RSG and Balancing Charges on typical residential gas winter monthly bills, if approved by the Board, are shown in Table #1.

Based on the filing, the average monthly impact of the proposed rates to the typical residential gas customer using 172 therms in a winter month and 87 average monthly therms (1,040 annually) would be a decrease in the average monthly bill from \$98.45 to \$91.85, or \$6.59 or approximately 6.70%. Furthermore, on an annual basis, the customer using 1,040 therms annually would experience a decrease in their annual bill from \$1,181.36 to \$1,102.24, or \$79.12 or approximately 6.70%.

In addition, the Board, in its Order in Docket No. GX01050304 dated January 6, 2023, granted Public Service approval to increase its Commodity Charge rates to be effective December 1st of this year, 2023, and/or February 1st of next year, 2024, on a self-implementing basis; each increase is subject to a maximum rate increase of 5% of the average rate based on a typical residential customer's monthly bill of 100 therms on average (or 1,200 therms annually). Such rate increases shall be preconditioned upon written notice by Public Service to BPU Staff and the New Jersey Division of Rate Counsel ("Rate Counsel") no later than November 1, 2023 and/or January 1, 2024 of its intention to apply a December 1st or a February 1st self-implementing rate increase, respectively, and the approximate amount of the increases based upon then current market data. These increases, if requested and implemented, would be in accordance with the Board-approved methodology.

Should it become necessary to apply the December 1, 2023 self-implementing 5% increase, the bill impact would be an increase as illustrated in Table #2.

A copy of this Notice of Filing and Public Hearings on the Petition is being served upon the clerk, executive or administrator of each municipality and county within the Company's service territory.
