

Wyckoff Environmental Commission/ Wyckoff Green Team

Wyckoff is collecting photo's and short stories for it's ERI project

The Wyckoff Environmental Commission is in the process of updating it's Environmental Resource Inventory Report. Members of the subcommittee have been diligently working since October 2016 on the document which was last updated in 1995. Residents are invited to submit short stories and photos of Wyckoff to include in the report. Kindly submit all information to the WEC @ wec@wyckoff-nj.com

Big, bigger, biggest...

Wyckoff can boast as having one of the biggest red oaks in the state of New Jersey, which can be found at 737 Wyckoff Avenue. Today this tree is 22 feet in circumference, as measured at 4 1/2 feet off the ground. It has grown 3' 7" in 23 years, since the last report in 1995. It is estimated to be over 400 years old.

Members of the ERI subcommittee pictured in front of the 400+ year old tree include; Tom Madigan Committeeman, Robert Fortunato Planning Board Liaison, Christine Key Environmental Commissioner, John McCauley Environmental Commission Chair, Denise Capparelli Environmental Commissioner, JR Frank Green Team Volunteer and missing when photo was taken Julia Alfano IHHS Student Green Team Volunteer.
